

Line Number	Identifier	Error Type	Error	Error Correction
12	Global Variable (totalStudents)			
14	Function Prototype (addStudent)			
22	Variable (choice)	Syntax Error	Missing semicolon after declaration	int choice;
53	Switch Statement	Syntax Error	Missing colon after default	default:
76	Loop (for)			
78	Loop Condition	Runtime Error	Loop accesses one element beyond array	Use i < totalStudents
101	Function (calculateAverage)	Runtime Error	Division by zero	return total/totalStudents;
106	Variable (highest)	Semantic Error	Float value stored in int	Use float highest
108	Variable (lowest)	Semantic Error	Float value stored in int	Use float lowest
128	Variable (totalStudent)	Scope Error	Undeclared variable	Use totalStudents
130	Function Call (printGrade)	Linker Error	Function not declared/defined	Declare and define function
132	Function Call (calculateRank)	Linker Error	Function not declared/defined	Declare and define function
139	Variable (rollNo)	Semantic Error	String assigned to int	s.rollNo = 101;
143	Variable (marks)	Semantic Error	String assigned to float	s.marks = 90.0;
157	Structure Array	Semantic Error	Cannot assign NULL to structure object	Use flag or shift elements
166	String Comparison	Logical Error	Arrays compared using ==	Use strcmp()
175	Variable (avg)	Semantic Error	Assigning float return value to int	Use float avg
188	File Operation	Runtime Error	File opened in read mode then written	Use fopen(...,"w")
