

Line Number	Identifier	Error Type	Error	Error Correction
13	Global Variable (totalAccounts)			
15	Function Prototype (createAccount)			
85	Loop Condition	Runtime Error	Loop accesses one element beyond array	Use i < totalAccounts
126	Conditional	Logical Error	Withdrawal condition reversed	Use balance < amount
169	Variable (totalAccount)	Scope Error	Undeclared variable	Use totalAccounts
171	Function Call (calculateInterest)	Linker Error	Function not declared/defined	Call existing interestCalculator() or define function
180	Variable (accNo)	Semantic Error	String assigned to int	a.accNo = 1001;
184	Variable (balance)	Semantic Error	String assigned to float	a.balance = 50000.0;
201	Structure Array	Semantic Error	Cannot assign NULL to structure object	Use flag or shift elements
210	String Comparison	Logical Error	Arrays compared using ==	Use strcmp()
219	Function Call (generateAverage)	Linker Error	Function not declared/defined	Declare and define function
232	File Operation	Runtime Error	File opened in read mode then written	Use fopen(...,"w")
278	Array Access	Runtime Error	Index 10 out of bounds	Use index 0-4
282	Pointer (ptr)	Runtime Error	NULL pointer dereference	Assign valid address
287	Expression	Runtime Error	Division by zero	Ensure b != 0
